

PROJECTS

Location: Kent

Business Type: Independent Boys School

Project: ipCCTV

We were approached by one of the UK's top Boys Boarding Schools to provide ip-CCTV (Internet CCTV) equipment to cover their multi-million pound Leisure Centre ahead of its opening in 2008 by Olympic Gold medallist Sebastian Coe.

Since this time the system has been significantly expanded around the School's facilities to provide an additional layer of protection for their Pupils, Staff, Visitors and Facilities.

The system comprises a range of overt and covert digital Axis internet cameras, a mixture of fixed and Pan, Tilt and Zoom (PTZ) devices including day and night vision, Automatic Number Plate Recognition (ANPR) on approach roads, and with the video and audio streams being recorded and archived by professional Milestone software.

Revolutionary IT Evolutionary Service

We've supported businesses in Kent & London for over 20 years

Network Computing At Your Service

Network Computing have been providing IT support to small and medium-sized businesses throughout Kent and London since 1993. We are proud of our professional, friendly team at Network Computing. Our Technicians are reassuringly approachable, competent and committed to resolving your issue. We pride ourselves on providing a first class level of service to our customers and in turn have a high level of customer loyalty and satisfaction.

Support Schemes

Network Computing can support your business whether you need additional expertise to work alongside an internal IT team or we can cradle your whole IT system by incorporating full network management assistance. We support small to medium sized businesses and our competitively priced schemes have been designed accordingly for structure and finance.

Structured IT Systems

Your IT infrastructure is in good hands with our Networking, Data Back-up and Recovery, Effective Security and Business Mobility Tools. We want your business cogs to keep turning. Simple or complex, Network Computing will ensure the most effective network requirements are in place.

Web & Cloud

Network Computing have implemented this system for years and our experience will give you confidence and peace of mind. With our own state-of-the-art Data Centre and Disaster Recovery suite, we can provide a range of cloud computing and hosted services.
