

PROJECTS

Location: Kent

Business Type: Military Contractor

Project: Supplementary IT Support

Our Client is a leading international 'battlefield clearance' specialist, operating in over 45 countries, with an in-house IT Department maintaining their secure computing and communications infrastructure.

Their challenge was to find a competent IT services partner with appropriate security and confidentiality credentials to provide short notice response to assist in times of peak-workload and to ensure adequate cover for holiday and sickness, and our work with them has extended to provide Board Level policy and development advice.

Revolutionary IT Evolutionary Service

We've supported businesses in Kent & London for over 20 years

Network Computing At Your Service

Network Computing have been providing IT support to small and medium-sized businesses throughout Kent and London since 1993. We are proud of our professional, friendly team at Network Computing. Our Technicians are reassuringly approachable, competent and committed to resolving your issue. We pride ourselves on providing a first class level of service to our customers and in turn have a high level of customer loyalty and satisfaction.

Support Schemes

Network Computing can support your business whether you need additional expertise to work alongside an internal IT team or we can cradle your whole IT system by incorporating full network management assistance. We support small to medium sized businesses and our competitively priced schemes have been designed accordingly for structure and finance.

Structured IT Systems

Your IT infrastructure is in good hands with our Networking, Data Back-up and Recovery, Effective Security and Business Mobility Tools. We want your business cogs to keep turning. Simple or complex, Network Computing will ensure the most effective network requirements are in place.

Web & Cloud

Network Computing have implemented this system for years and our experience will give you confidence and peace of mind. With our own state-of-the-art Data Centre and Disaster Recovery suite, we can provide a range of cloud computing and hosted services.
